EdVentures offers a homeschool learning and enrichment pod experience as well as homeschool guidance; educational consulting for programs, leadership, and families; and community classes for homeschoolers. Our pod offers a space for homeschoolers to gather in a small and nurturing climate that pairs opportunities for cooperative, theme-based learning in class with individualized education at home. Our program focuses on topical, theme-based learning in the core subjects, art, movement, and STEAM. This allows students of all levels to work together on hands-on, engaging, and meaningful activities, projects, and more!

We provide quality educational products, award-winning children's books, STEAM toys, and learning manipulatives as an independent Brand Partner with PaperPie (formerly Usborne Books & More). Books and educational materials are shared with the community in various ways. Below are some of the ways we serve and share our literacy and learning mission.

- Virtual or In-person book gatherings – build your home library with our host rewards program by gathering friends and family for a fun book gathering!
- Book fairs - help families find quality books while helping a local organization, school, library, daycare, etc. earn free books!
- Charity Book Drives - help bring books into the lives of many blessed by organizations such as a local children's hospital, foster care agency, etc!
- Cards for a Cause Program - help raise funds by sharing our beautifully embellished cards for organizations such as sports teams, youth groups, studios, or even personal needs, such as medical bills or adoption costs!
- Party for a Cause - help a family or organization in need by throwing a literacy event and showering them with all the book rewards!
- Baby Shower or Birthday Gathering - gift a new momma/papa or a child with loads of new books & activities to love and explore!

We offer group fitness classes and private training sessions for youth for ages 7-19. Our goal is to help kids learn movement habits and skills to help them live healthy, active lives, now and in the future. We focus on good form and technique, as well as making the experience positive and fun. We want each kid to come out of a class or private training session feeling GOOD about themselves, movement, and motivated to continue! Our program was created and is still run by a homeschool mom, and we offer classes for homeschoolers during weekday afternoons, and classes for all kids in the evenings. Private training sessions by appointment. All ages, experience levels, and abilities can succeed in our program!

As a K-8th grade community in North Fulton, the mission of Catalyst Studio Schoolhouse is to empower students to be learners, thinkers and engaged citizens, inspired to make a difference. We are explorers not passengers. A curious crew embarking on a journey of discovery with every new unit.

We are a full-week micro school, combining the best of Montessori and One Room Schoolhouse models. Students can attend all day or come for any one of our academic subjects, led by accredited teachers and experienced support staff. We also offer visual, dramatic and skill-based art classes as well as media arts/coding, project based studio time and after-school options for working parents. Our physical education class meets after lunch and makes use of local parks for team sports. These classes are open to homeschool groups wanting to enjoy team activities with us.

The Excalibur Solutions STEM Academy offers STEM education opportunities to students in schools and homeschools that lack the resources and expertise to offer these programs themselves. We focus on the Technology and Engineering aspects of STEM by teaching computer programming, electronics, 3D design, and other concepts that develop 21st century skills and prepare students to pursue a STEM-related field in college or as a career. For homeschools, our content is available as a subscription to a collection of self-paced, instructor-led video lessons grouped into projects that highlight specific concepts or technologies. With us, learning is authentic, project-based, and interdisciplinary.

Fusion Athletics Club was founded on the belief that everyone can achieve greatness. We believe fitness is a lifestyle. Nyx Training Center, our first ninja, parkour and World Chase Tag™ facility, supports and encourages the growth of individuals on the path to healthy, balanced living, as well as those dedicating themselves to the goal of professional athletics. Our goal at Nyx is to become the largest ninja and parkour facility in the country, and we are also the only gym in the country with a permanent show-standard World Chase Tag™ arena. Through Nyx, Fusion Athletics has created a safe and productive environment for everyone working toward personal health goals.

We understand that finding new creative ways to get your homeschooler to move and exercise can be hard, so we developed a class involving several games that work on air awareness, falling safely, increasing cardio vascularity and more.

The King's Academy JROTC is a Christ-centered Army JROTC program offered for Homeschool students. This program teaches community service, academic excellence, and leadership with a focus on time management. The JROTC mission is to motivate young people to become better citizens. The program also offers many special teams to explore additional skills and opportunities, these include physical with Raiders and Orienteering, as well as mental, with Academic and Leadership teams, and also includes a full STEM program with VEX Robotics, Cyber Patriot, and Drones. There are also special teams for Color Guard, Drill, and Marksmanship. This program is an excellent foundation for future job potentials, leadership skills and achievements, college admissions, scholarships, or potential military service.
